Marian's Adult Programs

You have the experience. Now earn the degree!

There's never been a better time to continue your education and advance your career.

With Marian University's flexible, online Bachelor of Business Administration (BBA) degree, we make it easy for busy adults, like you, to balance work, family, and other responsibilities while attaining your educational goals. We'll help you fasttrack your career with classes that last just five or eight weeks. And, because new classes start 12 times a year, you can pick the pace that best fits your schedule.

Build on the experience you've acquired in the workplace and gain new knowledge and skills through our innovative curriculum. With more knowledge and deeper insights into the business world, you can immediately apply what you learn in the workplace, becoming a more valued, respected employee.

The BBA is a 128-credit hour program that includes core courses focused on helping you acquire practical, applied knowledge in accounting, statistics, business law, ethics, economics, and technology, among other subjects.

Throughout the course of your studies, you'll gain real-world experience by developing solutions to common challenges in business and nonprofit settings. At the same time, you'll build and expand your professional network by interacting with faculty, business professionals, and your peers.

- Marian University partners with local organizations, businesses, sports teams, and other enterprises to provide you with opportunities to engage in high-impact, project-based learning as you meet course objectives.
- Take advantage of internship opportunities, designed for students who work full-time. These program partners include mentorship and jobshadowing options.
- Ask us how you can earn credit through special projects completed via independent study with our community partners.

► **Our experienced advisors will talk with you about how your existing credits may transfer.**

“

Completing my bachelor's degree at Marian University was the best career decision I ever made. Not only did I gain a new level of self-confidence, business acumen, and professional poise, but my employer presented me with four different advancement opportunities within the organization after I graduated.”
